HELP PEOPLE LIVING WITH DEMENTIA

Active lifestyle:

Our Day Centre runs five days of dementia-specific programs each week. Services are available to anyone with dementia, from very early stage, or first diagnosis, to separate programs for people with more advanced dementia.

We plan to extend these services to include overnight respite care for our community of people living with dementia.

Peace for carers:

Our programs aim to promote self-esteem for the person living with dementia and to give friends and family members a break, knowing that their loved one is happy, occupied and safe.

The Overnight Respite Centre will extend the services providing peace of mind for carers and clients.

Providing a safe environment:

Caladenia's premises were specially designed for people with dementia. Where members feel a need to "wander", they are encouraged to move about the building and gardens in complete security.

The Overnight Respite Centre will be designed with this in mind extending the safe environment to temporary overnight services.

Familiar surroundings:

Day Centre groups are run from our own Meadowbank House, which is the only purpose built facility for Dementia Specific Day Care in the Shire of Yarra Ranges.

The Overnight Respite Centre will extend the services to the Shire of Yarra Ranges community providing the ONLY overnight facility for people living with dementia.
