## Fun Facts about Summer

1. If you visit one new beach in Australia every day, it will take over 27 years to see them all.
2. Each year, Brisbane hosts the world championships of cockroach racing.
3. Australia has three times more sheep than people.
4. An Australian man once tried to sell New Zealand on eBay.
5. Most of Australia's exotic flora and fauna cannot be found anywhere else in the world. A selfie with cuddly marsupials like koalas, quokkas, wombats, and kangaroos are only possible in Australia. Though I would suggest a wide berth to dangerous (usually venomous) animals like the blue ring octopus, the stone fish and funnel web spider.
6. There are 60 designated wine regions in Australia, producing approximately 1.35 trillion bottles of wine every year.
7. What is unique about Australia's weather?

Due to the huge size of the country, Australia has several different climate zones. The northern section of Australia has a more tropical influenced climate, hot and humid in the summer, and quite warm and dry in the winter, while the southern parts are cooler with mild summers and cool, sometimes rainy winters.

## Summer Job

For her summer job, my 18-year-old daughter arranged interviews at several day-care centres. At one meeting, she sat down on one of the kiddie seats, no simple task for most people. The interview went well, and at the end, the day-care centre director asked the standard question, "Can you give me one good reason we should hire you?" "Because I fit in the chairs." She got the job!!!!

## The Beach

Our first day at a resort my wife and I decided to hit the beach. When I went back to our room to get something to drink, one of the hotel maids was making our bed. I grabbed my cooler and was on my way out when I paused and asked, "Can we drink beer on the beach?" "Sure," she said, "but I have to finish the rest of the rooms beforehand."
